

Error Log Entry - House, Ch6 Ex1

What error message did you encounter (if any)?

- "Invalid escape sequence"

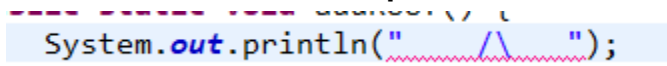

What unexpected behaviour did your program exhibit?

- My program wouldn't run due to an "unresolved compilation problem."
-

What caused the issue? (ex, syntax error, logic error, incorrect function usage, etc)

- Syntax issue

Include a screenshot of specific lines of code.

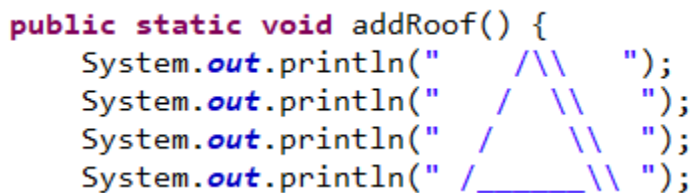

```
System.out.println("  /\");
```

How did you fix the issue?

- By adding a second backslash so it wouldn't get marked as an error, and would compile correctly.

Provide the corrected code or solution using a screenshot.

```
public static void addRoof() {  
    System.out.println("    /\");  
    System.out.println("  /\");  
    System.out.println(" /\");  
    System.out.println(" /_\");  
}
```
