

Instructions:

1. Click on File -> Make a copy

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	Ch4. Exercise 4	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
- Model number of the car (modelName)	1. Uses a switch statement to check if the model number inputted is in the defective list. 2. If the model number matches one of the defective numbers, the car is defective. 3. If the model number does not match, the car is not defective.	Depending on user input the screen will display 1. "Your car is defective. It must be repaired." OR 2. "Your car is not defective! Hooray!"
